

## Kalkitech SYNC 1000 – Product Release

May 10, 2010

Kalkitech, the leading energy communication solution provider in India has launched its latest offering in the Gateway / Protocol segment, SYNC 1000, with multiple functions suited for rugged applications across industries.

SYNC1000 is a pocket sized field device that can act as a communicable remote monitoring and control node for individual data sources for applications like transformer monitoring, meter reading, retrofitting legacy devices with new protocols, serial to Ethernet/PPP converter, bump-in-the-wire security adapter, 61850 proxy GGIO gateway and M2M Node with VPN and SMS. The device comes with optional built-in wireless modems and digital and analog IO and is built to withstand outdoor conditions and can act as a mini pole-top RTU.

SYNC 1000 finds a variety of applications in:

- Any-to-any protocol conversion
- Automatic Metering and Management Solutions
- Remote Monitoring and Control
- Data Concentration
- Serial Pass Through
- Redundant FEPs
- Security Adapter
- Device Server

### About Kalkitech

**KALKI Communication Technologies Limited** (Kalkitech) was founded in 1998, with the vision of becoming the leading provider of standard-based, Control, Communication and Computing solutions to OEMs, System Integrators and End-Users in the energy industry. Continuous innovation through research and development is at the core of Kalkitech's corporate philosophy aimed at creating a Whole New World of Intelligent Energy Systems.
