

# Eltrix Billing and Settlement Platform

## ELTRIX - BILLING & SCHEDULE MANAGEMENT SOFTWARE (ABT) FOR POWER

Kalkitech pioneered ABT software in India with the first implementation in the year 2002.

From then on, Kalkitech has implemented numerous solutions at Generating Stations and Load Dispatch Centres. The current version of Eltrix ABT software has a pedigree of over 18 years and represents the latest in Software technology, Data Acquisition and Security.

Eltrix Billing & Settlement Platform addresses Billing solution requirement for Power, both in Generating station and at Load Dispatch, for Potable water and for Waste Water. In Generation Stations, Eltrix – ABT module helps the operator in Managing the Schedule, Minimising the DSM Deviation and in Reconciliation of DSM Charges.

Figure 2- Dashboard

## Eltrix Features

- Energy meter data using standard interfaces (Serial / Ethernet / FO) on Standard protocol viz. DLMS/ MODBUS
- Graphical user interface and dashboards
- Report generation
- Economical implementation

## Benefits

- Minimize Deviation
- Regulatory Compliance
- Energy data monitoring
- Reconciliation of DSM Charges
- Custom reporting
